

Effective May 6, 2024

PFAS Declaration of Compliance

Price Engineering continues to monitor potential regulatory, safety, health, and environmental impact of our products as part of our on-going product stewardship and regulatory compliance efforts. As such, Price Engineering routinely reviews material composition of our products against local, state, and federal regulatory compliance requirements.

Price Engineering has reviewed their products along with raw components from their suppliers. Based on this review, Price Engineering has determined that there are **no intentionally added PFAS materials** in any of the their products. Price Engineering assumes no liability and is not responsible for any PFAS, PFOS, or PFOA that may be present.

This information is based upon information provided to us by the suppliers of raw materials and other processing material used to manufacture our products.

A handwritten signature in black ink, appearing to read "Ty Barnes".

Ty Barnes

Operations Manager
